Jonathan P. Healy

Web Developer

Web developer with a bold curiosity for learning new technologies and an excitement to meet the challenges that lie ahead. With a B.S. in Business Administration and a long history of management experience within the service industry, I bring a unique perspective to web development and an ability to clearly communicate with clients and co-workers alike.

C++, JavaScript, PHP, Python

WORK EXPERIENCE

Web Developer
UCSD Jacobs School of Engineering

04/2019 - Present

Achievements/Tasks

- Manage 10+ department level sites and hundreds of simple sites across numerous platforms including ColdFusion, Drupal 7/8/9, New/Classic Google Sites, WordPress, and static HTML.
- Redesign and construct new department and research institute sites in Drupal 8/9.
- Create and update custom Drupal modules and templates using Twig, the Drupal API, and PHP.
- Draft internal documentation for department sites explaining site configuration and functionality.
- Implement procedure for Drupal 7 to Drupal 8 migration on multiple department-level sites, each consisting of thousands of individual nodes.
- Conduct data migration via Drupal modules, MySQL Workbench, and CSV imports/exports.
- Prepare guides and coordinate Drupal training sessions to support content managers.
- Administer the migration of hundreds of Classic Google Sites via the Classic Sites migration tool, the largest of which being ported into Drupal for more simplified content management.

Web Developer
Contracting

01/2018 - 04/2019

Achievements/Tasks

- Performed web development work as a contractor for individuals and small businesses, revamping and updating websites of varying levels of complexity.
- Single-handedly developed and designed fully functional websites using HTML, CSS, PHP, WordPress, and Squarespace.
- Tested and debugged websites to achieve full responsiveness, cross-platform compatibility, and accessibility.
- Met with clients on a regular basis to discuss design aesthetics, site goals, and app integration.

EDUCATION

Full Stack Web Development Bootcamp
UCSD Extension Center

01/2017 - 04/2017
